Located in Vienna, Austria, the **VAMED Group** is an internationally leading company in the field of Health Care. According to our philosophy "everything from one source", we constantly develop new and innovative strategies to ensure our market leadership.

### **YOUR CHALLENGE:**

- Support the implementation of Medical Technical projects for VAMED within the Benelux in the fields of medical engineering, planning & procurement
- Be part of the team for full life-cycle MT asset planning
- Training period at the medical engineering departments of VAMED in Utrecht and Vienna.
- Effectively communicate with customers such as the medical staff and the engineering department of hospitals
- Contact with suppliers, requests for proposals and offer processing
- Definition and description of the detailed specifications of medical equipment
- Determination of interfaces in co-ordination with construction management, facility management and CAD operations
- Equipment planning, management of room equipment lists, drafting of catalogues including specifications and quantities, cost estimates, preparation of the general specifications, compilation and presentation of the documentation to the customer
- Active co-operation with other organizational units / departments

### **YOUR PROFILE:**

- Technical degree on HBO or WO level (from a technical college, university of applied sciences or university of technology)
- Min. 3 years of working experience
- Excellent computer skills & Knowledge on CAD or BIM modelling
- Native Dutch speaker and profound language skills in English
- Excellent team working and communication skills
- Precise and structured working style
- High mobility and readiness to travel

### **LOCATION:**

- Utrecht / Netherlands, with travelling in Benelux and to HQ in Austria

### **OUR OFFER:**

- A role with high levels of responsibility and the potential for career development
- Dynamically growing market with a perspective for the future
- Overall conditions of an internationally successful group
